ANNEXURE-I

Report on Corporate Governance for the year ended March 31, 2024

PHILOSOPHY ON CORPORATE GOVERNANCE

At Akshar Spintex limited, we believe Good corporate governance is an essential part of well-managed, successful business enterprise that delivers value to shareholders. Transparency and accountability are the two basic tenets of Corporate Governance. The core of Corporate Governance is based upon, inter- alia; the objective of maximizing the wealth of all the Stakeholders of the Company by making optimum utilization of resources at its disposal and fulfilling its obligations towards Corporate Responsibility and contributing to Nation Building to the best of its might. It also advocates the principles of transparency to be followed by the Company in all its decisions and actions; apart from furnishing full disclosures to the Board, its Shareholders and other Stakeholders.

The above principles have been the guiding force for whatever we do and shall continue to be so in the years to come. The Company is committed to adhere to high standards of the Corporate Governance Code in words and spirit. It is also constantly taking review of systems and procedures to keep pace with changing corporate environment. Corporate Governance is the application of best management practices, compliance of law in true letter and spirit and adherence to ethical standards for effective management and distribution of wealth for sustainable development of all the stakeholders. Corporate Governance practices constitute the strong foundation on which successful organizations are built to last. The Company is committed to the adoption of best governance practices and their adherence in true spirit at all times. The Company always aims towards building trust and enhancing its stakeholders' values on a sustainable basis. The Company strives to promote good governance practices through Transparency, Integrity, Responsibility, Passion for Excellence and Respect, towards all its stakeholders. Effective Corporate Governance practices have been the Company's hallmark inherited from its culture and ethos

COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management discussion and analysis report provide an over view of the financial and Business activities for the fiscal year ended on 31st March 2024, gives an overall sight of the yarn industry, opportunities and threats in the business and Company's strategy to deal with that. This report is designed to focus on current year's activities, resulting changes and other known facts in conjunction to the financial and strategic position of the Company.

KEY MARKET INSIGHTS & Economic Scenario

The textile industry in India is largest industry after agriculture and is also highly labour intensive offering the largest volume of employment. India is among the world's largest producer of textiles and apparels.

The textiles and apparel industry in India has strengths across the entire value chain from fiber, yarn, fabric to apparel. The Indian textile and apparel industry is highly diversified with a wide range of segments ranging from products of traditional handloom, handicrafts, wool, and silk products to the organized textile industry in India. The organized textile industry in India is characterized by the use of capital-intensive technology for the mass production of textile products and includes spinning, weaving, processing, and apparel manufacturing.

The global cotton yarn market size is projected to grow from \$86.11 billion in 2024 to \$117.79 billion by 2032, at a CAGR of 4.0% during the forecast period.

Cotton yarn is made using natural cotton harvested from the Cotton plant. These yarns are produced using different types of spinning processes. Based on the spinning process used to manufacture cotton yarn, the yarn produced across the globe can be primarily categorized into two types, carded and combed yarns. Different types of yarns have unique characteristics which ultimately influence the type of application it will be employed in and the quality of finished textile goods. For example, combed yarn is produced using high-quality cotton fiber by adding the combing process to the carded yarn.

Combed yarn is a finer and better quality product, making it useful for manufacturing fabrics with premium texture and durability. The majority of cotton yarn produced across the globe is used to manufacture apparels. Currently, consumers and brands are promoting sustainable fashion like never before, and clothing made using cotton yarn is an excellent choice for sustainability.

Lockdown restrictions enforced during the COVID-19 pandemic caused supply chain disruptions for various industries across the globe, with this market being no exception. The lockdowns imposed across

several countries resulted in logistics challenges, raw material and labor shortages, and other inevitable challenges. Several yarn-manufacturing units were either closed or operating at a reduced capacity owing to the labor-intensive nature of manufacturing facilities. The manufacturing companies in this industry witnessed significant price fluctuations due to supply shortages and the effect of this disruption still affects the current prices. However, with significant control over the spread of the pandemic, the prices of cotton are returning to normalization as the supply chain is getting back on track. This is expected to help the revival of the industry over the next few years.

India has a 4% share of the global trade in textiles and apparel.

The textiles and apparel industry contribute 2.3% to the country's GDP, 13% to industrial production and 12% to exports.

The textile industry has around 45 million of workers employed in the sector, including 3.5 million handloom workers. India's textile and apparel exports (including handicrafts) stood at US\$ 44.4 billion in FY22, a 41% increase YoY.

Total textile exports are expected to reach US\$ 65 billion by FY26. The Indian textile and apparel industry is expected to grow at 10% CAGR from 2019-20 to reach US\$ 190 billion by 2025-26. The Indian apparel market stood at US\$ 40 billion in 2020 and is expected to reach US\$ 135 billion by 2025. The Rs. 10,683 crores (US\$ 1.44 billion) PLI scheme is expected to be a major boost for the textile manufacturers. The scheme proposes to incentivize MMF (man-made fiber) apparel, MMF fabrics and 10 segments of technical textiles products.

DEVELOPMENTS& FUTURE OUTLOOK OF THE COTTON YARN INDUSTRY

India is the world's second-largest producer of textiles and garments.

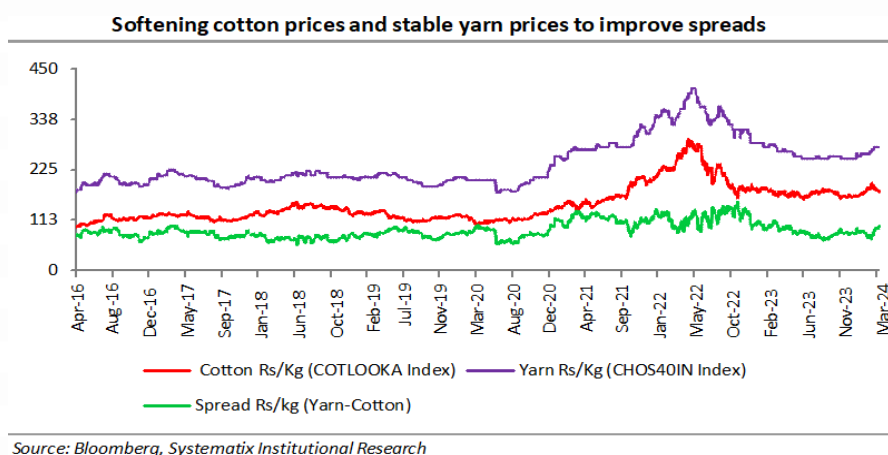

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital-intensive sophisticated mills sector on the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of yarns from natural fibres like cotton, jute, silk and wool, to synthetic/man-made fibres like polyester, viscose, nylon and acrylic.

India is one of the largest producers of cotton and jute in the world. India is also the 2nd largest producer of silk in the world and 95% of the world's hand-woven fabric comes from India. The Indian technical textiles segment is estimated at \$16 bn, approximately 6% of the global market.

The textiles and apparel industry in India is the 2nd largest employer in the country providing direct employment to 45 million people and 100 million people in allied industries.

- **Production:** Cotton production in the upcoming Cotton Season (CS) 2024 is expected to decline to 5.4bn kgs from 5.7bn kgs in CS23. In CS23, the initial stockpiling of cotton resulted in shortage of cotton in the market. Owing to the recent decline in cotton prices, farmers may switch to other crops in search of better prices, which could impact acreage. Given that India's cotton production is closely tied to acreage, it is unlikely that cotton production would increase in the upcoming season. Experts expect cotton availability to improve in the coming quarters, as the crop has been healthy.
- **Stable consumption:** Cotton consumption could trail production and is likely to stay stable at 5.3bn kgs in CS24, consistent with the previous season.

- **Improved cotton-yarn spreads stemming from benign raw material prices:** Average domestic prices of cotton/yarn rose steeply to touch peak levels of Rs 272/364 per kg during Q1FY23 from Rs 114/203 per kg during Q3FY21. However, during this period, cotton- yarn spreads fell from Rs 97/kg to Rs 92/kg, as prices of cotton increased at a faster clip than those of yarn. In FY23, weak export demand caused yarn prices to fall sharply, leading margins to compress, narrowing the spread between cotton and yarn. Going forward, improved cotton supply to keep cotton prices stable, while superior downstream demand could keep yarn prices firm. CRISIL expects spreads to remain at pre-pandemic levels of Rs 85-90/kg.
- **Capacity utilization levels expected to improve:** Spinners currently operate at 80- 85% capacity, with further 10-15% scope for improvement. Crisil expects overall utilization to improve in FY24, on the back of enriched demand from downstream industries, as utilization levels in knitwear, home textiles, apparel, etc., have risen. Although, capacity utilization in denim is less in India compared to Bangladesh and Turkey, the same is expected to improve, going forward.

Crisil expects moderate revenue growth in FY25

- **Cotton yarn:** Crisil expects revenue to drop by 5-7% in FY24. However, in FY25 it expects revenue to see a moderate 4-6% surge, in anticipation of normalized volume growth, improved availability of cotton and steady yarn prices.
- **Polyester yarn:** Revenue is expected to expand moderately by 2-4% in FY25, following flattish growth in FY24 due to flooding of cheap polyester yarn by China. Growth will likely be supported by favourable government regulations (implementation of QCOs), gradual improvement in volumes, with reduction in cheap polyester yarn imports from China. However, dumping of cheaper Chinese polyester fabrics in the domestic market could restrict sales growth.

Operating margins to recover gradually

- **Cotton yarn:** Post lower margins in H1FY24 due to lower spreads and inventory losses, operating margins began to rebound Q3FY24 onwards, as CS24 commenced and reduced inventory losses. Operating margins are expected to recover 100-150 basis points from decadal lows of 8.5-9% in FY24 to 10-10.5% in FY25, owing to expected improvement in cotton yarn spreads and fewer inventory losses. Experts anticipate better profitability for spinners in FY25 than in FY24.
- **Polyester yarn:** Expected reduction in RM prices (PTA & MEG), stable polyester yarn prices, moderate sales growth and reduction in cheaper imports of polyester yarn from China is expected to improve profitability by 50-100bps to 6.5-7.5% in FY25.

Capex

- **Cotton yarn:** In FY24, capex plans of larger players were impacted due to stress on margins in the industry. CRISIL expects capex to recover slowly from FY25. However, experts on the panel believed capex could be limited and revival unlikely in the near term, unless a major export demand emerges. Experts believe 8- 10% margins in the spinning industry would be insufficient to incur fresh capex.
- **Polyester yarn:** The industry added 5-6% of its capacity in last two years, which should operationalize in FY25. Hence, no major capex is planned for FY25.

Export have posted strong growth over the years:

India's cotton yarn exports to surge by 85% to 90% in FY2024: ICRA

In ICRA's recently published research note on the domestic cotton spinning industry, the rating agency expects demand for the industry to improve by close to 12-14% in volume terms in FY2024 on a yearly basis, with yarn exports likely to increase by a sharp 85% to 90%, on the back of a shift in sourcing preference away from China, and the expectations of demand improving for the spring/summer season in the US and the EU regions that will drive domestic demand from apparel and home textile manufacturers. However, a sharp moderation in cotton prices, leading to lower yarn realizations, is likely to translate to a 9-10% year-on-year (YoY) decline in revenues to ~Rs. 33,465 crores in FY2024.

Cotton yarn exports typically account for ~25-35% of India's cotton yarn production, while the remaining is accounted for by the domestic market. While a steep decline (53%) was witnessed in cotton yarn exports in FY2023, there has been a trend reversal in the current fiscal. In 7M FY2024, overall yarn export volumes grew by ~142% (on a YoY basis) on a low base, and with increased exports to China, resulting in the share of exports in the overall production increasing from 19% in FY2023 to ~33% in 7M FY2024. For the full year FY2024, ICRA estimates India's yarn exports to increase by ~85- 90% on a YoY basis. Bangladesh, China, and Vietnam account for ~60% of these exports. With the share of Asia in Indian yarn exports being ~70%, no immediate impact on Indian yarn exports is expected due to the ongoing Red Sea conflict; any sustained continuance of this face-off would have a direct impact on apparel export volumes and a consequent impact on both domestic and export demand for cotton yarn and its realisations

Raw Material

Cotton is one of the most important commercial crops cultivated in India and accounts for around 25% of the total global cotton production. It plays a major role in sustaining the livelihood of an estimated 6 million cotton farmers and 40-50 million people engaged in related activity such as cotton processing & trade. The Indian Textile Industry consumes a diverse range of fibres and yarns and the ratio of use of cotton to non - cotton fibres in India is around 60:40 whereas it is 30:70 in the rest of the world.

Apart from being the provider of a basic necessity of life i.e. clothing which is next only to food, cotton is also one of the largest contributor to India's net foreign exchange by way of exports in the form of raw cotton, intermediate products such as yarn and fabrics to ultimate finished products in the form of garments, made ups and knitwear. Due to its economic importance in India, it is also termed as "White-Gold".

Government Support and Initiatives in Textile Sector

PM MITRA

The Government has launched PM Mega Integrated Textile Region and Apparel (PM MITRA) Parks Scheme to develop world class infrastructure including plug and play facility with an outlay of Rs. 4445 crores for a period up-to 2027-28. PM MITRA Parks Scheme are inspired by the 5F vision of Hon'ble Prime Minister - Farm to Fibre to Factory to Fashion to Foreign. Nearly Rs. 70,000 crore investment and 20 lakhs employment generation is envisaged. Parks will offer an opportunity to create an integrated textiles value chain right from spinning, weaving, processing/dyeing and printing to garment manufacturing at a single location. World-class industrial infrastructure would attract cutting edge technology and boost FDI and local investment in the sector. Centre and States to form SPVs for setting up PM MITRA Parks. These parks will be developed in PPP mode.

Amended Technology Upgradation Fund Scheme (ATUFS)

Under ATUFS, ratio of MSME: Non MSME is 89:11, while under previous versions of TUFS it was 30:70. Higher incentives of 15% (Rs 30 crore) for entities for employment potential segments viz. Technical Textiles and garment/made ups. Employment support to more than 17 lakhs (3.9 lakhs New and 13.4 lakhs Existing) over seven years. Out of total 3.9 lakhs new employment generated, 1.12 lakh (29%) are women.

PLI Scheme

The Government has approved the Production Linked Incentive (PLI) Scheme for Textiles with an approved outlay of Rs 10,683 crore over a five year period to promote production of MMF Apparel, MMF Fabrics and products of Technical Textiles in the country to enable Textile sector to achieve size and scale and to become competitive The Scheme has two parts: Part-1 envisages a minimum investment of Rs.300 crore & minimum turnover of Rs.600 crore per company and Part-2 envisages a minimum investment of Rs.100 crore & minimum turnover of Rs.200 crore per company There will be two years of gestation period under the Scheme (FY: 2022-23 and FY. 2023- 24). The incentive will be provided to the companies under the scheme on achieving the threshold investment and threshold turnover and thereafter incremental turnover. 64 applicants were selected under the Scheme. In the approved 64 applications, the total proposed investment would be Rs.19,798 crore, projected turnover would be Rs.1,93,926 crore and proposed employment generation would be 2,45,362. As per Quarterly Review Reports (QRRs) as on 30.09.2023, the eligible investment made under the Scheme was Rs. 2,119 crore of 30 selected applicants, out of which 12 selected applicants started commercial production, turnover achieved was Rs. 520 crore including export of Rs.81 crore and employment generated was 8,214.

Ministry of Textiles has reopened the PLI portal for inviting fresh applications from interested companies under the scheme upto 31st December 2023

Bharat Tex 2024

BHARAT TEX 2024 is a global textile mega event organized by a consortium of 11 Textile Export Promotion Councils and supported by the Ministry of Textiles. It is scheduled from February 26-29, 2024 in New Delhi. With a focus on sustainability and resilient supply chains, it promises to be a tapestry of tradition and technology attracting the best and the brightest from the textile world. It will have dedicated pavilions on Sustainability and Recycling, thematic discussions on resilient global supply chains and digitization, interactive fabric testing zones, product demonstrations and master-classes by crafts persons and events involving global brands and international designers. Bharat Tex 2024 will be a unique experience for knowledge, business and networking. The mega event will feature an exhibition spread across nearly 20 lakh sq. ft area showcasing Apparel, Home Furnishings, Floor Coverings, Fibres, Yarns, Threads, Fabrics, Carpets, Silk, Textiles based Handicrafts, Technical Textiles and much more. It will also feature nearly 50 different knowledge sessions providing an excellent platform for knowledge exchange, information dissemination and Government to Government and Business to Business interactions.

SAMARTH

The Government with a view to enhance the skills of the workforce in the textile sector has formulated Samarth Scheme under a broad skilling policy framework with the objective of providing opportunity for sustainable livelihood. The implementation period of the scheme is upto March 2024.

The scheme aims to provide demand driven and placement oriented National Skill Qualification Framework (NSQF) compliant skilling programmes to incentivize and supplement the efforts of the industry in creating jobs in the organised textile sector and related sectors, covering the entire value chain of textiles excluding spinning & weaving and in addition it also provides skilling and skill- upgradation in the traditional textile sectors.

The skilling programme under the scheme is implemented through Implementing Partners (IPs) comprising Textile Industry/Industry Associations, State Government agencies and Sectoral Organizations of Ministry of Textiles. Under the Scheme 2,47,465 persons have been trained as on 11.12.2023.

Remission of Duties or Taxes on Export Product (RoDTEP)

The government of India introduced a new scheme, named RoDTEP, in September 2019 and released a budget allocation of Rs. 500 billion by March 13, 2020, in a move to replace MEIS (which ends in December 2019) and RoSL (only refunds state taxes). The new scheme is in terms with the conditions of the WTO, where incentives cannot be provided, but the taxes incurred during the process can be refunded. Hence, the government plans to refund all state (RoSL) and Central government taxes incurred by the export players during the manufacturing process of RMG. According to the government, this new scheme would "adequately compensate" for the current 6% (4% MEIS and 2% RMG) benefits being availed of by the RMG exporters and help them stay competitive enough in the international trade market.

Scaling-up organic cotton industry

- India is expected to host the 81st Plenary Meeting of the International Cotton Advisory Committee (ICAC) from 2nd to 5th December 2023 in Mumbai with the theme “Cotton Value Chain-Local Innovations for Global Prosperity”.
- Cott-Ally mobile app has been developed for farmers to increase awareness about MSP rates, nearest procurement centers, payment tracking, best farm practices etc.
- In March 2022, the Tamil Nadu government included a Sustainable Cotton Cultivation Mission in its agriculture budget by allocating US\$ 1.86 million (Rs.15.32 crore) to enhance the yield of organic cotton.

Innovations to create sustainable textiles

- Arvind Limited, the largest textile to technology conglomerate in India, and PurFi Global LLC, a sustainable technology firm that specializes in rejuvenating textile waste into virgin grade products, have formed a joint venture to reduce the quantity of textile waste dumped in landfills.
- The Sustainable Textiles for Sustainable Development (SusTex) project by the United Nations Climate Change entity enhances the employment and working circumstances of textile artisans while promoting the sustainable production and use of environmentally friendly textiles.
- Many Indian textile players are now opting for sustainable production. BRFL Textiles Private Limited (BTPL), India's largest fabric processing facility, has introduced a new sulphur dyeing process involving continuous dyeing without requiring water. BTPL is the first company in the textile sector to implement this new process of dyeing, making it the pioneer of this innovative sustainable process.
- Sangam India Ltd, one of the foremost producers in PV dyed yarn, cotton and OE yarn and also ready to stitch fabric, has installed two solar power plants of 5 MW that on average helps them to bring down their carbon footprint by at least 20% per annum. SIL also plans to increase the use of recycled fibre, leading to lesser consumption of plastic waste by using it as a raw material.

Kasturi Cotton Bharat

Kasturi Cotton Bharat programme of Ministry of Textiles is a first of its kind branding, traceability and certification exercise carried out jointly by the Government of India, Trade Bodies and Industry to promote Indian Cotton. Stakeholders across the supply chain including farmers, Ginning Units, Spinning Mills, Processing Houses, Weaving Units, Garmenting Units, Home Textile manufacturers and even Retailers and Brands will be involved in a collaborative effort to promote and enhance the value of Indian Cotton across the domestic and overseas markets.

To encourage the Trade and Industry to work on the principle of self-regulation by owning complete responsibility of Traceability, Certification and Branding of Kasturi Cotton Bharat, MoU has been signed between CCI on behalf of Govt. of India, Ministry of Textiles and TEXPROCIL.

The Ministry of Textiles is driving this initiative in a mission-oriented approach, allocating budgetary support in alignment with Rs.15 crores contribution from Trade & Industry Bodies. Spanning three years from 2022-23 to 2024-25, this collaborative effort anticipates a positive impact on the entire Indian Textile Industry, fostering an elevated global perception and value for Indian Cotton.

COMPETITION IN FOREIGN MARKETS

With 50 Million Spindles and 0.75 Mn Open-End Rotors, India has the world's second largest spinning capacity, commanding a share of the global Cotton Yarn market - currently producing over 4700 Mn.Kgs of spun yarn of which over 3,400 Mn.Kgs is cotton yarn. Cotton Yarn accounts for nearly 73% of total spun yarn production. Indian Spinning Industry is the most modern and efficient in the world.

India produces a comprehensive range of yarns for every conveyable end use - non-spun or open-end; combed or carded, basic, compact, mélange or fancy. India's 1943 spinning mills produce them all for requirements ranging from a fine 200 count to a coarse 2 count.

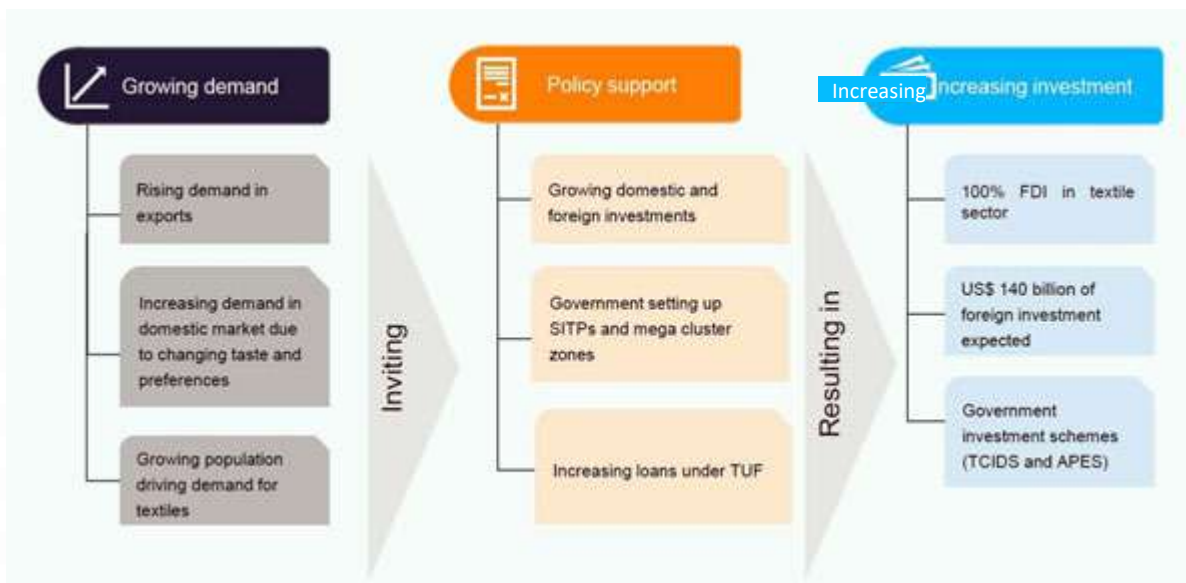

The world's most renowned Indian Cotton Yarns are available as greige, bleached, mercerized, gassed, twisted, dyed or an endless range of fashion yarns like mélange, stretch, blends, high twist and so on to meet the different applications in fashion, clothing, home textiles, hosiery and industrial fabrics. India can meet every customer requirement whether large or small, regular or customized, premium or basic.

Constant induction of state-of-the-art technologies like compact spinning, using the most advanced yarn processing technology and high-precision process controls tools like electronic cleaners, auto slavers, splicers, two-for-one twisters and auto-coners give Indian mills a competitive advantage.

Today, Indian yarn is widely accepted in International markets as the exporters here regularly meet the needs of importers with unmatched efficiency and economy in countries like USA, Italy, Spain, Japan, China, South Korea, Taiwan, Bangladesh, Vietnam etc.

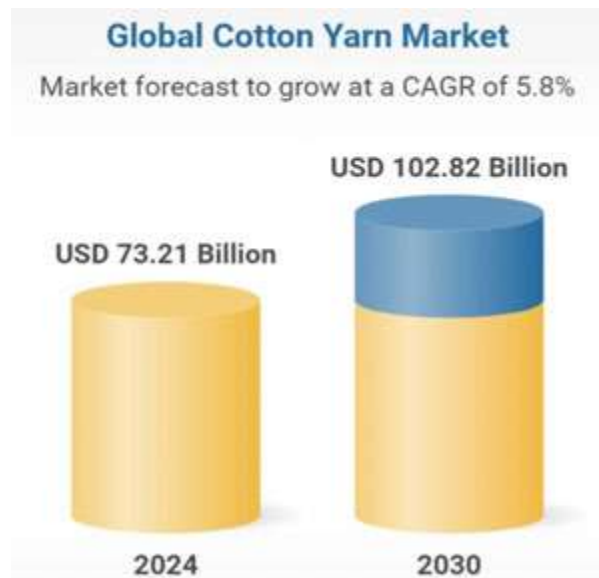

- The Indian textile industry has been facing increasing competition in world markets. This is largely due to high cost of production and consequently high prices of cotton. It is paradoxical in a country where wages are low and cotton is internally available.

- Availability of quality cotton in required volume can be made achievable through framing Government Policies for increasing the productivity of cotton on par with international producers.
- Though the mandatory compliance of BIS Standard for several textile products including MMF Fibre, Yarn, Technical Textile products, etc., by way of issuing Quality Control Orders (QCO) is a welcome move and would encourage Atma Nirbhar Bharat, it lacks workable standards. Also, the initial investment towards establishment of lab and its connected mandates is beyond the capacity of the growing MSME sector that accounts over 85% of the entire textile value chain. The industry, industry Associations and the government are actively involved in addressing the issues in complying the QCOs. The Government is in the process of bringing more than 100 QCOs covering the entire textile value chain.
- India's textile and apparel industry can be labelled as that rocket which zoomed off to the skies but lost its fizz somewhere in between. Despite being the second-largest exporter of textiles and accounting for 5% of the global share of textiles and apparel, India's first runners up crown face stiff chances of being taken away by smaller countries like Vietnam and Bangladesh.
- The principles of sustainability, traceability and circularity have begun to rule the export market. The domestic manufacturers are also working towards incorporating the same in the manufacturing process. However, the cost of certification to prove the same is already on higher side and still escalating.

GLOBAL OUTLOOK

The Cotton Yarn Market size was at USD 69.43 billion in 2023, USD 73.21 billion in 2024, and is expected to grow at a CAGR of 5.76% to reach USD 102.82 billion by 2030. India aims to achieve a prominent global position in manufacturing and exports of different types of textiles including jute, silk, cotton and wool. India has the potential to increase its textile exports in the next five years. Exports of Cotton yarns are a significant component of India's export basket, as it plays a vital role in boosting the domestic economy.

Exporters gaining from strong global demand

- India is the world's second-largest textile exporter. Capacity built over years has led to low cost of production per unit in India's textile industry. This has lent a strong competitive advantage to the country's textile exporters over key global peers.

During (April-September) 2023-24, the total exports of textiles stood at US\$ 20.01 billion.

- In the coming decade, Africa and Latin America could very well turnout to be the key markets for Indian textiles.
- In April 2022, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Mr. Piyush Goyal, said that new Economic Cooperation and Trade Agreements with Australia and the UAE would open infinite opportunities for textiles and handloom. Indian textile exports to Australia and the UAE would now face zero duties, and he expressed confidence that soon Europe, Canada, the UK and GCC countries would also welcome Indian textile exports at zero duty.
- The Ministry of Textiles favored limited deal for the India-UK free trade agreement that could boost the garments sector. Under the proposed trade agreement, the Textile Ministry expects more market access for the Indian textiles and clothing sector in order to achieve its full potential.

COMPANY PERFORMANCE AND BUSINESS OUTLOOK

The Company's focus on strengthening its infrastructure to produce diverse products, including various high-quality value-added yarn and collaborating with customers to manufacturer innovative products helped it maintain an optimum level of capacity utilization and grow sales volume in export market.

Although India imposed a duty on imported cotton during the last fiscal year, the Company was able to mitigate this by using the Advanced License Scheme available to it under Foreign Trade Policy of the Government of India. Sales volume of value-added yarn such as Elitwist, Gassing, High twist, Melange, Core yarn and Mercerized yarn increased to 5563.23 Tonnes during the FY 2023-24, a 55% growth from 3610.10 Tonnes during the previous year.

During Financial Year 2023-24, Company's Revenue from operation was Rs.17495.51 /- Lakhs, a Increase from the 13,553.25/- Lakhs in the previous year. The volatility in cotton prices are continuing and the prices of cotton and yarn are widely fluctuating. Although there was an improved arrival of cotton in the market during later part of the current cotton season, prices continue to rule higher due to improved domestic demand for cotton.

The higher-than-expected inflation rate across the globe has resulted in the tightening of monetary policy rates by Central Banks, leading to reduced consumer spending. Demand for textile products remains stagnant due to global macroeconomic factors such as rising interest rates, fallout of major banks and fears of recession. Large volume orders are not being placed by buyers due to uncertainty and high inflation all over the world. Additionally, the rise in the raw material prices has resulted in high priced textile items, which are not absorbed in the retail value chain.

To combat these challenges, the Company is continuously monitoring various process parameters and implementing various system controls to deliver consistent quality of yarn and fabric to the end customers and leading brands. The Company has also strengthened its the product lines with more automation like fully automatic contamination removal system at blow room stage, 100% ring spindle monitoring system, , which has resulted in overall improvement in the operating efficiency of the Company. Strengthening of its product lines with more value-added customized yarn counts such as Mercerized Yarn, Melange Yarn, Core Yarn etc., will help the Company to isolate against the headwinds of falling demand for commodity count.

FY 2023-2024 was a significant year for the Company as we took decisive steps in executing on our Business Growth & Diversification Strategy and for the expansion of business. The company has added the solar plant

STRENGTHS, WEAKNESS, OPPORTUNITIES AND THREATS:

The textile industry is undergoing fast change as the industry continues to grow. Today's enterprises have multiple benefits due to technological progress, resulting in everyday economic shifts. In order to effectively strategize, it is crucial for a textile organization to appreciate the patterns of market movement. An effective strategy provides organizations with a head start in planning and a competitive advantage. SWOT Analysis can be a reliable method for getting market research that can give your organization a competitive advantage.

For many years, the textile industry has significantly contributed to our economy. It is a sector that accounts for 14% of the total production made in the industrial sector. The textile industry fulfills one of the most fundamental and consistent requirements that people have. It is able to sustain its expansion by enhancing the quality of life for the human population. This industry is self-sufficient, especially when compared to others. Over the course of many years, it has been demonstrated to be one of the most significant contributors to a country's economy. In recent years, the textile industry has experienced phenomenal expansion. This has attracted a considerable amount of attention from other countries around the world.

STRENGTHS	WEAKNESS
<ul style="list-style-type: none"> • Indian Textile Industry is an Independent & Self-Reliant industry. • Abundant Raw Material availability that helps industry to control costs and reduces the lead-time across the operation. • Availability of Low Cost and Skilled Manpower provides competitive advantage to industry. • Availability of large varieties of cotton fibre and has a fast growing synthetic fibre industry. • India has great advantage in Spinning Sector and has a presence in all process of operation and value chain. • India is one of the largest exporters of Yarn in international market and contributes around 25% share of the global trade in Cotton Yarn. • The Apparel Industry is one of largest foreign revenue contributor and holds 12% of the country's total export. • Industry has large and diversified segments that provide wide variety of products. • Growing Economy and Potential Domestic and International Market. • Industry has Manufacturing Flexibility that helps to increase the productivity. 	<ul style="list-style-type: none"> • Indian Textile Industry is highly Fragmented Industry. • Industry is highly dependent on Cotton. • Lower Productivity in various segments. • There is Declining in Mill Segment. • Lack of Technological Development that affect the productivity and other activities in whole value chain. • Infrastructural Bottlenecks and Efficiency such as, Transaction Time at Ports and transportation Time. • Unfavourable labour Laws. • Lack of Trade Membership, which restrict to tap other potential market. • Lacking to generate Economies of Scale. • Higher Indirect Taxes, Power and Interest Rates.

OPPORTUNITIES	THREATS
<ul style="list-style-type: none"> • Growth rate of Domestic Textile Industry is 6-8% per annum. • Large, Potential Domestic and International Market. • Product development and Diversification to cater global needs. • Elimination of Quota Restriction leads to greater Market Development. • Market is gradually shifting towards Branded Readymade Garment. <p>Increased Disposable Income and Purchasing Power of Indian Customer opens Newmarket Development.</p> <ul style="list-style-type: none"> • Emerging Retail Industry and Malls provide huge opportunities for the Apparel, Handicraft and other segments of the industry. • Greater Investment and FDI opportunities are available 	<ul style="list-style-type: none"> • Competition from other developing countries, especially China. • Continuous Quality Improvement is need of the hour as there are different demand patterns all over the world. • Elimination of Quota system will lead to fluctuations in Export Demand. • Threat for Traditional Market for Power loom and Handloom Products and forcing them for product diversification. • Geographical Disadvantages. • International labour and Environmental Laws. • To balance the demand and supply. • To make balance between price and quality

RISKS AND CONCERNS:

No industry is free from normal business risk and concerns. Indian Textile Industry continues to face stiff competition from China, Bangladesh, Taiwan and other emerging economies. Threats, competitiveness of Industry is dependent upon the raw cotton prices, exchange rates and prevalent interest rates regime. The primary raw material for the manufacturing of yarn is cotton which is an agriculture produce. Its supply and quality are subject to forces of nature i.e. Monsoon. Any increase in the prices of raw cotton will make the things difficult for the Textile Industry resulting weak demand and thin margins. Thus, availability of raw cotton at the reasonable prices is crucial for the spinning industry. Any significant change in the raw cotton prices can affect the performance of the industry.

There are certain key risks associated with our Company. Such risks are stated in the table below along with our mitigation strategies for curbing the same:

Risk	Impact	Mitigation
Economic downturn	A downturn in the economy can adversely affect products' demand	We have been actively engaged in widening our geographical presence while continuously expanding our product portfolio. Not being bound to a specific region and a basket of products to offer from gives us the ability to face such downturns.
Cybersecurity	Cyber-attacks on the Company could result in possible losses for the Company through the use of out-of-date systems and new work-from-home / remote working environments	<ul style="list-style-type: none"> ➤ Educating and Training people on vulnerability to cyberattacks ➤ Get the essentials in place e.g. anti-virus, firewalls, password use, whitelisting, access control, SSL, SSO Network and data encryption ➤ Conduct component-driven and system-driven driven risk ➤ Assessments ➤ Restricted access control to the physical equipment ➤ Symantec Endpoint Protection against Viruses, Malware, ➤ Adware, Spyware Invest in Research and Development team
Technology Risk	It is possible that the business continuity and disaster recovery plans won't work when needed There is no Data Leakage Prevention (DLP) mechanism in place to track any organizational data leakage	<ul style="list-style-type: none"> ➤ Short Term SAP drill conducted once every 6 months ➤ BCP to be formalized ➤ USB's blocked across the organization ➤ MS Intune installed ➤ Firewall for social media blocking
Operational Risk	The completion of projects may be delayed by the need for approvals and procedural challenges brought on by excessive delays from government departments	<ul style="list-style-type: none"> ➤ Pre-construction trackers in place ➤ Review conducted every 15 days of local regulation ➤ Best in class liaison consultants
Capacity	Inadequate capacity may lead to loss of opportunity	Short Term <ul style="list-style-type: none"> ➤ Capacity expansion ➤ Upgradation and expansion Long Term <ul style="list-style-type: none"> ➤ Continuously looking for opportunities
Raw Material Securitization	Inadequacy or absence of raw material has the potential to impact operations	<ul style="list-style-type: none"> ➤ Increasing green coverage and planting trees
Cost of Production	High cost of production can reduce profit margins	<ul style="list-style-type: none"> ➤ Reduce cost of Raw Materials and Packaging

Higher Prices and Shortage of Basic Raw Material	Shortage of Cotton/ Higher Cotton Prices	To mitigate the price risk, the following actions are initiated: <ul style="list-style-type: none"> ➤ Develop a dedicated strategy for components that are subject to volatility ➤ Use financial and operational hedging ➤ Monitor pricing trends ➤ Manage inventory to soften impact of price changes e.g. Stockpiling Continuous engagement with cotton materials suppliers
Competition Risk	An increase in the competition from textile industry can severely hamper our Company's market share.	<ul style="list-style-type: none"> ➤ Regular customer satisfaction survey and engagement mechanism to sustain strong relationship with customers ➤ Continue to undertake operational savings initiatives to remain cost efficient ➤ Gather intelligence and assess risk ➤ Use industry research and advisory firms to scan for competitive risk ➤ Periodic monitoring of all actions of competitors Improve competitive analysis
Availability of skilled personnel	Our success depends upon our ability to attract and retain skilled personnel. Any kind of failure in this area can adversely affect our business and operations	We conduct induction programmes to nurture our talent in a structured manner. We also offer various incentives and growth opportunities to our people. This helps retain the talented and skilled workforce

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no other key audit matters to communicate in our report.

Emphasis of Matter

We draw your attention to Note 38.2 to the financial statements where the Company's management has stated that outstanding balances, if any, at the end of the year in respect of trade receivables, trade payables etc. are subject to confirmation from those respective parties and consequential reconciliation or adjustments arising there from. These have not been independently verified by us during the year under review. Any adjustment to the value of such balances as appearing in the balance sheet of the Company may have an effect on the profit and net assets of the Company for the period and year ended March 31, 2024.

Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Annexure B

Referred to in point f. of the section Report on Other Legal and Regulatory Requirements
Independent Auditors' Report of even date to the members of Akshar Spintex Limited on the financial statements for the year ended March 31, 2024

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

In conjunction with our audit of the financial statements of the Company as of and for the year ended March 31, 2024, we have audited the internal financial controls over the financial reporting of Akshar Spintex Limited ("the Company") as of that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures

that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly state the nature and amount of assets and liabilities, and the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

According to the information and explanations given to us and based on our audit, the following material weakness(es) have been identified as at March 31, 2024:

The Company did not have an appropriate internal control system for customer acceptance, credit evaluation and establishing customer credit limits for sales, which could potentially result in the Company recognizing revenue without establishing reasonable certainty of ultimate realization of receivables.

The Company did not have an appropriate internal control system for inventory with regard to receipts, issue for production and physical verification. Further, the internal control system for identification and allocation of overheads to inventory was also not adequate. These could potentially result in material misstatements in the Company's trade payables, consumption, inventory and expense account balances.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued.

(B) FAIR VALUE HEIRARCHY

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. The Company has made certain judgements and estimates in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company as classified the financial instruments into three levels prescribed under the accounting standard. An explanation of each level is as

Level 1: Level 1 of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Level 2 heirarchy includes financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific

Level 3: If one or more of the significant inputs is not based on the observable market data, the instrument is included in Level 3 heirarchy.

(C) VALUATION TECHNIQUES

Specific valuation techniques used to value financial instruments include

- the use of quoted market prices for mutual funds
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis or such other acceptable valuation methodology, wherever applicable

There are no items in the financial instruments, which required level 3 valuation.

Note: 35 Capital Management

The Company policy is to have robust financial base so as to maintain outsider's confidence and to sustain future development of the business. Management monitors the return on capital, as well as level of dividends to equity shareholders. The company monitors capital using a ratio of "adjusted net debt" to "equity". For this purpose, adjusted net debt is defined as total liability, comprising interest-bearing loans and borrowing, less cash and cash equivalents. Total Equity includes the share capital, other equity.

The capital gearing ratio is as follows:

Particulars	31-Mar-24	31-Mar-23
Borrowings (Incl. Current Maturity)	1,897.99	1,767.43
Less: Cash and Cash Equivalents	(0.53)	(1.74)

Other Equity	1,388.46	1,564.25
Total Equity (B)	4,388.34	4,064.15
Adjusted Net Debt to Total Equity ratio (A/B)	0.43	0.43

Note: 36 Financial Risk Management

The Company's business activities are exposed to a variety of financial risks, viz liquidity risk, market risk and credit risk. The Management of the Company has the overall responsibility for establishing and governing the Company's risk policy framework. The risk management policies are formulated after the identification and analysis of the risks and suitable risk limits and controls are set which are monitored & reviewed periodically. The changes in the market conditions and allied areas are accordingly reflected in the changes of the policy. The key risks and mitigating actions are placed before the Audit Committee of the Company who then evaluate and take the necessary corrective action. The sources of risk, which the Company is exposed to and how the Company manages these risks with their impact on the Financial Statements is given below:

Risk	Exposure from	Measurement	Management
Credit risk	Trade receivables, Cash and cash	Ageing analysis, Credit ratings	Credit limits and bank guarantees
Liquidity risk	Borrowings, Trade payables and other liabilities	Cash flow budgeted Vs actuals	Availability of committed credit lines and borrowing facilities
Market risk - Foreign Currency	Foreign currency receivables and payables; Forecasted foreign currency transactions	Cash flow forecasting and Sensitivity analysis	Insignificant foreign currency exposure
Market risk - Interest rate	Long-term borrowings at variable interest rates	Sensitivity analysis	The management monitors the rates of interests and continues to evaluate refinancing of debts at lower rates of interest on a regular basis.

[A] Credit risk

Credit risk is the risk of financial loss to the Company if the counterparty fails to meet its contractual obligations. The Company is exposed to credit risk from its operating activities (primarily trade receivables). However, the credit risk on account of financing activities, i.e., balances with banks is very low, since the Company holds all the balances with approved bankers only.

Trade receivables

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the customers outstanding balances to which the Company grants credit terms in the normal course of business. Concentration of credit risk with respect to trade receivables are limited, as the Company's customer base is large, reputed and having good credit credential as well as that they are long standing customers. All trade receivables are reviewed and assessed for default on a quarterly basis. Historical experience of collecting receivables of the Company is supported by low level of past default and hence the credit risk is

[B] Liquidity risk

Liquidity risk is the risk the Company faces in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, Management considers both normal and stressed conditions.

Maturities of financial liabilities

The below table analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities. The amounts disclosed in the table are contractual undiscounted cash flows, balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

[C] Market risk

The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- Currency risk; and
- Interest rate risk

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets /borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

Interest rate risk exposure

The exposure of the Company to change in interest rate at end of the reporting periods are as follows:

Particulars	31-Mar-24		31-Mar-23	
	Amount	% of total	Amount	% of total
Variable rate borrowing	1,897.99	100.00%	1,767.43	100.00%
Fixed rate borrowing	-	0.00%	-	0.00%
	1,897.99		1,767.43	

Sensitivity

Profit and loss is sensitive to higher/lower interest expenses from borrowing as a result of change in interest rate.

Particulars	Impact on profit after tax	
	31-Mar-24	31-Mar-23
Interest rate increase by 100 basis points	(25.66)	(23.90)
Interest rate decrease by 100 basis points	25.66	23.90

Note: 37 Segment Information :

(a) Primary segment
